STEP OUT, STEP UP AND SEIZE THE OPPORTUNITY

"Whether you think you can, or think you can't... you're right." – Henry Ford You will never know until you step out of your "comfort zone". You will discover: Why you should step outside your comfort zone; How to recognise challenge as an opportunity; and The importance of making the commitment.

REMEMBER THE MEMBER

Are your clubs quality clubs? Do they meet your members' needs? Whether a District or Club leader, when making any decision which will impact on your members, remember to always **"Remember the Member"**. Discover tips to ensure success.

CONFLICT, A CAUSE FOR CONCERN

When elephants fight....the grass gets trampled! And the "grass" can be your team members, your staff or your associates. In any group of diverse people some level of confrontation is inevitable. Learn how to deal with conflict resolution as a vital leadership tool.

MENTORING – MORE THAN JUST A WORD

Mentoring is such an important role in Toastmasters that for it to achieve its true purpose it needs a formalised approach. Appointing a mentor is not enough. Is it the right pairing of mentor and mentee? Has the mentee outgrown the mentor? Discover the process and a required systematic approach of evaluation and review.

STAYING THE COURSE

"Commitment" comes between "Commencement" and "Conclusion" in the dictionary. Nothing worthwhile is ever achieved without commitment. In this session, you will learn to: Prioritise your commitments; Avoid "burnout"; Know when to say "no"; Reap the rewards for persistence; and Build your confidence.

DO YOU DARE TO FAIL?

We learn more from failure than we do from success! From this session you will understand: It's okay to fail and how to "win" from it; How to take calculated risks; The evolution of success and how to leverage it; and How to be confident in making decisions.

TEAM DEVELOPMENT AND BUILDING A TEAM OF CHAMPIONS

A cohesive team is the foundation of most successful ventures and the need to build a team that works together, rather than a group of individuals, should be the aim of management irrespective of the objectives. This session examines the dynamics of a team, and how to utilise individual talents and strengths to achieve the common goal.
